

Stonks Whitepaper

V1.0

Stonks (STK)

A meme-man based Token for the Algorand Community just for fun! We are not Affiliated with any Stonk cryptos on other blockchains. We are on Algorand with new unique use cases.

Welcome!

Stonks is not a meme coin. **IT'S A MOVEMENT.** A new cryptocurrency for the fans and members of the whole NFT space. Stonks was inspired and named after the famous meme-man who is seen by most people on the internet. \$STK is working on three flagship utility projects: a Meme NFT competition in the community, Grants for new projects in Algorand in areas such as all NFT Algorand artists, NFT gallery development on Algorand. The final utility will be building a VR NFT Gallery to show our community's legendary work. We call our community the Stonks. We call ourselves Stonkers in honour of meme-man. The NFTs are the heart of our community and the project.

We are more than just sayers in a movement. We back it up with action! We take our community efforts seriously and listen.

Community is the fuel to the Moon.

Project purpose: The purpose of this token is to make the project as fun as possible through memes and art for the community on the Algorand Blockchain.

There also will be grants for various up and coming projects being built on Algorand that we will support with our community and help fund with \$STK.

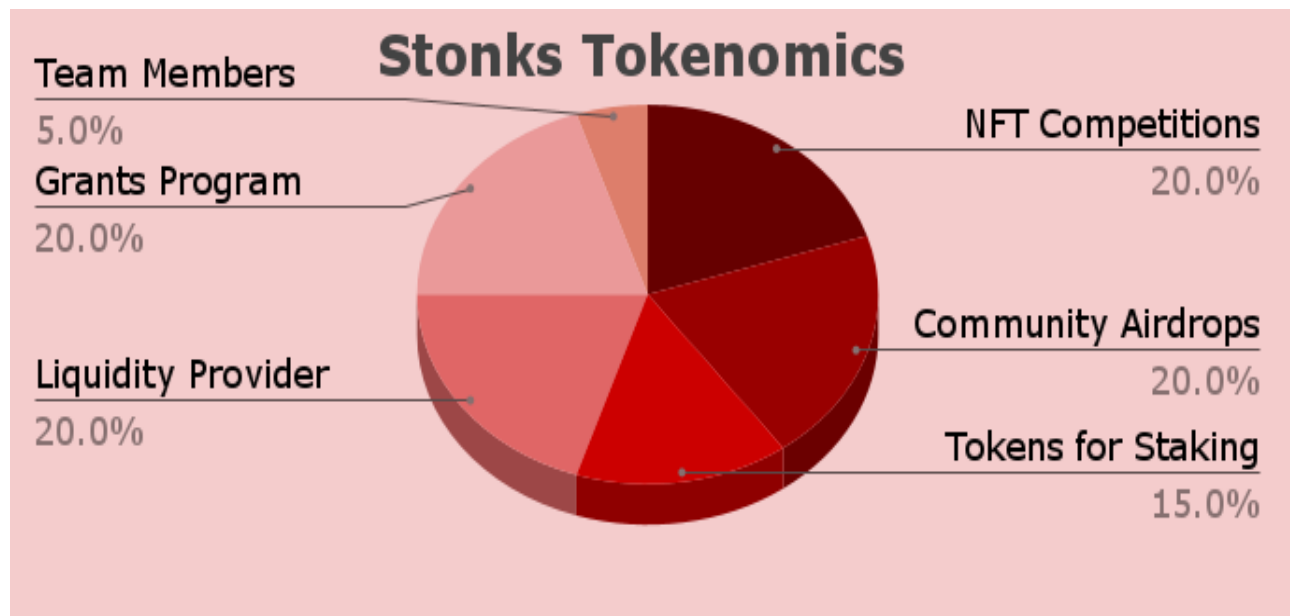

Technical Info about \$STK :

- The project tokens are called Stonks (\$STK).
- Total Token Supply: 21,000,000.00 (21 Million).
- Total Decimals: 8

- D. **Liquidity provider incentive in liquidity pools** as 20%.
- E. **Grants program supporting projects on Algorand** 20%.
- F. **Team members share** 5%.

Proof of Meme:

“Proof of Meme(PoM) leverages the social mechanics of memes to grow a strong community in an efficient amount of time. Through high speeds of sharing on the internet and simple pictures filled with humour, PoM is a Trojan proof for community building.” ~ Sara Jane Kenny

Memes in general have become a way of communication and expression on social media and internet forums just like GIFs

“What makes internet memes particularly interesting, and different from advertising, is their user-generated character and their creation in order to resonate, provoke or amuse rather than following a marketing agenda”

- Conference: Interpretive Consumer Research, At: Lyon, France, May 2019

Proof of Meme is a concept that meme creators and artists in the community will be rewarded and recognised while experiencing exponential growth as a community.

Taking advantage of the *Domino Effect*.

“Who controls the memes, controls the Universe” ~ Elon Musk (<https://twitter.com/elonmusk/status/1276418907968925696?s=20>)

Memes are modern art

3:08 AM · Nov 14, 2019 · Twitter for iPhone

Meme Competitions:

Competitions will be happening on a monthly basis, with different meme topics for the community. Community users can take part and start creating their own meme based on the Topic. Some examples of the topic would be Stonks token, Algorand ecosystem, Algorand blockchain. Win prizes decided by mass community votes through our social media platforms.

The Champions memes will be minted as a NFT. They will be showcased in the legendary “Hall of Meme”, a VR NFT gallery built on Algorand. So the Champions Memes will be forever engraved onto the blockchain!

Grant Opportunities:

There will be grants for various initiatives such as new upcoming projects representing women in crypto, projects by underrepresented communities, and projects that are building on algorand which will be selected by community polls every month depending on the project applications we receive.

VR Legendary Meme NFT Gallery:

The VR Legendary Meme NFT Gallery will launch and showcase Community Champion winning Memes through “Hall of Meme”. The winning memes selected by the community through competitions will be minted and represented in VR gallery for NFTs. The Champion will have the choice on whether we mint two or one of the memes as NFTs. Two so the Champion can have a copy or just one unique one for the Gallery.

STONKS ROADMAP

Timing	Milestone	Status
Q4 2021		
	Create Stonks Token \$STK	COMPLETED
	Launch Social Media	COMPLETED
	Launch Airdrop Forum	COMPLETED
